Product information:

The ARCHI Series combines architectural elegance with ground breaking audio performance. Designed for bars, restaurants, hospitality, and residential applications, these compact subwoofers deliver immersive sound with minimal visual impact.

Featuring innovations like AcoustiMesh for acoustic neutrality, AeroVent for noise-free bass performance, and WeatherTreated capabilities, the ARCHI Series excels indoors and outdoors. With low-frequency extensions down to 26Hz, flexible mounting options, and durable materials, the ARCHI Series redefines low-frequency fidelity, offering powerful, precise bass in a discreet, stylish design.

ARCHI210: Twice the power for 1,5 times the value

The ARCHI210 takes performance to the next level with its dual-driver bass reflex design, engineered to deliver immersive, distortion-free bass. The AcoustiMesh acoustic neutral 3D fabric ensures sound clarity, while the polyurea-coated 15mm MDF enclosure offers durability and stability. Equipped with ultraventured gap cooling, the ARCHI210 minimizes power compression, ensuring consistent performance even at high power levels. With the added flexibility to switch nominal impedance between 4 and 16 ohms, the ARCHI210 adapts seamlessly to various system configurations. Its weatherproof treated cone enhances durability, making it a robust choice for long-term use in high-demand environments. Designed for versatility, this model excels in delivering rich, powerful bass with precision and control.
