

# Acoustic Echo Cancellation activation

4 channels AEC activation license for LUNA-F

## Product information:

---

The SL-AEC4 is a software extension that activates the Acoustic Echo Cancellation (AEC) feature on the LUNA-F flexible networked audio matrix processors. This allows acoustic echo cancellation algorithms to be enabled for up to 4 independent channels (maximum).

## Variants:

---

- SL-AEC4 - License 4 channels AEC activation - Version 1.0
