- null
- 48V phantom power & XLR input that allows the use of various microphones
- null
- null
- null
- null
- null
- All-in-one mixing & sound processing

Product information:

The NPM200 is a Dante™/AES67-enabled PoE paging console that lets you make announcements and send commands over the network to trigger functions. With Power over Ethernet (PoE) technology, this console can be easily connected to your network without the need for additional power cables, making it the perfect solution for busy offices and other professional environments. Featuring a user-friendly interface and intuitive controls on a 3.5" touchscreen, the NPM200 allows you to easily manage audio paging and messaging. You can create and transmit pre-recorded messages or use the console's XLR input to make announcements in real-time.

Applications:

- null
- null
- Hotels
- Education
- null

Certification:

Dante®   Dante® Domain manager   PoE

Properties:

All-in-one mixing & sound processing
