

CAS110L

Swivel bearing caster 100mm with brake

Product information:

The CAS110L is a braked swivel bearing caster with a diameter of 100 mm (4") and thickness of 32 mm. The solid zinc-plated steel construction can hold a maximum load of 113 Kg's / pcs (450 Kg for a set of 4 wheels). The roller bearing guarantees a long-term reliability, while the blue rubber tyre ensures optimal grip on any surface. Mounting can be done by using four screw holes with a mutual distance 80 x 60 mm. The brake offers a total lock for both the wheel rotation and direction.
