

### Highlights:

---

- High grade aluminum construction
- Structured and scratch resistant black powder coating
- Assembly screws included
- Compatible with any CASY chassis
- Flexible system for system integration & connectivity

### Product information:

---

The CASY105A aluminum module features two holes to fit a D-size connector. This flexible structure for system integration & connectivity can easily be implemented in a wide variety of CASY chassis. The choice of aluminum for these blind plates has a couple of advantages compared to their steel counterparts. Aluminum is much lighter than steel and therefore only adds a little extra weight to a CASY configuration. These blind plates are ideal for quickly modifying and adding custom cut-out holes due to their softer material.

### Product Features:

---

Dimensions	1.40 x 3.23 " (W x H)	
Weight	0.022 lb	
Cut-out measurement	2 x D-size hole	
Module	Space	1
Construction	Aluminum	

### Variants:

---

- CASY105A/B - Black version
