

Highlights:

- · Structured and scratch resistant black powder coating
- · Assembly screws included
- Compatible with any CASY chassis
- Flexible system for system integration & connectivity
- · High grade aluminum construction

Product information:

The CASY105A aluminum module features two holes to fit a D-size connector. This flexible structure for system integration & D-size connectivity can easily be implemented in a wide variety of CASY chassis. The choice of aluminum for these blind plates has a couple of advantages compared to their steel counterparts. Aluminum is much lighter than steel and therefore only adds a little extra weight to a CASY configuration. These blind plates are ideal for quickly modifying and adding custom cut-out holes due to their softer material.

Product Features:

Dimensions		1.40 × 3.23 " (W × H)
Weight		0.022 lb
Cut-out measurement		2 x D-size hole
Module	Space	1
Construction		Aluminum

Variants:

· CASY105A/B - Black version
