

CMA350

Anti-shock mounting for gooseneck microphones

Highlights:

- Anti-vibration rubber around base for noise filtration

Product information:

CMA350 is a Anti-shock mounting for XLR based gooseneck microphones. It makes sure that the installed microphone does not absorb the vibrations of its environment canceling out the noise these vibrations would produce.

Product Features:

Tube	Diameter	0.87 "
Base	Diameter	2.95 "
Height		2.36 "
Cut-out measurement		2.17 " (Ø)
Built-in depth		2.36 "
Weight		0.13 lb
