- Protects & transports wide variation of cables, accessories, ...
- 526 x 526 x 580 mm inside dimensions
- Hinged top cover
- Optimal utilization of truck or pallet loadspace
- Insertable divider or tray optionally available

Product information:

The FCE066H professional flightcase with hinged top cover can be used for storage and transportation of cables, accessories, DI's, mi-crophones or other required accessories on your mobile installations. The construction is made out of high quality 9mm plywood covered by a ProShield™ top layer, offering optimal protection for your equip-ment. The standard outside dimensions of 600 x 600 x 620 mm (incl ball corners & feet) guarantee an optimal utilization of truck or pallet loadspace. The inside usable area of 526 x 526 x 580 mm can be divided in up to three individual compartments (using optional divider plates). An optional tray can be inserted for small accessories. Superior durability and handling convenience is guaranteed through Penn-Elcom® hardware such as heavy-duty ball corners, rivet pro-ected recessed flip handles and MOL™ type butterfly latches.
