

### Product information:

---

The FCE126H professional flightcase with hinged top cover can be used for storage and transportation of cables, accessories, DI's, microphones or other required accessories on your mobile installations. The construction is made out of high quality 9 mm plywood covered by a ProShield™ top layer, offering an optimal protection for your equipment. The standard outside dimensions of 1180 x 580 x 600 mm guarantee an optimal utilization of truck or pallet loadspace. The inside usable area of 1126 x 526 x 580 mm can be divided in up to six individual compartments (using optional divider plates). An optional tray can be inserted for small accessories. Superior durability and handling convenience is guaranteed through Penn-Elcom® hardware such as heavy-duty ball corners, rivet protected recessed flip handles and MOL™ type butterfly latches.

Product Features:
