

Product information:

This display panel informs your customers of the advantages and specifications of the PROCAB Contractor series. It comes equipped with a 7" full colour digital pictureframe preloaded with a presentation that gives more information about the Contractor productline. It also explains the details of the contractor installation using real cables and connectors. Panel Dimensions: 50x50cm

PROCAB
CONTRACTOR SERIES
Solderless easy HDMI Assembly

The PROCAB CONTRACTOR SERIES allows installers to cut off the exact amount of cabling needed. After the cable has been pulled through cable tubing, the connector can be attached without soldering.

This puts a stop to wasting excess cabling and makes pulling HDMI cables easier.

CONTRACTOR series 19-Pin HDMI connectors can be mounted on Procab HDMI 1.4 AWG24 or AWG26 cable using our CTV900 crimp tool.

Available Products:

- PROCAB Connectors
- HDMI24 HDMI Cable 24 AWG 100m reel
- HDMI26 HDMI Cable 26 AWG 100m reel
- CTV900 Tool: Crimping tool
- CTV900 Cable Tester: Portable Cable Tester
- CTV900 Kit: CTV 900, CTV900 & 20 HDMI24 connectors

CONTRACTOR SERIES

ASSEMBLY IN 5 EASY STEPS

STEP 1: Prepare The Cable
Strip the Cable and partly remove the foil.

STEP 2: Insert Wires
Insert the wires into the pin holders like shown in the manual.

STEP 3: Compress Cable to Connector
Compress using the crimping tool and guiding jig.

STEP 4: Final Assembly
Remove from guiding jig and attach the metal shell.

STEP 5: Test Cable
Test your cable using the Procab CTV900 Cable tester.

Assemble custom HDMI 1.4 cable in minutes!
