

Product information:

1 meter sample pack of the CCT60F. The CCT60F is a CAT6 installation networking cable featuring a Flamoflex™ outer jacket compliant to the IEC 60332-1 standard regarding fire and flammability resistance in public installations. The Flamoflex™ material is specifically designed with installers convenience in mind, offering a smooth and durable outer jacket for easy installation and pulling. The conductor section of the CCT60F consists of 4 pair with stranded 23 AWG conductors with a plastic + shaped separator in between them. Thanks to this plastic separator, better performance in terms of crosstalk and system noise can be achieved resulting in a higher bandwidth. The conductor section is surrounded by an overall aluminum foil shielding with drain wire. This offers improved immunity against noise and interference caused by external devices. Supports 10Base-T, 100Base-TX, 1000Base-T and 10GBase-T gigabit.
